Blueprint

Sponorship Prospectus

What is **Blueprint** ?

On March 30th and 31st, We are running a 2 day hardware hackathon called Blueprint in which students from grades 6th to 11th learn about the foundations of robotics and work in teams to build a real-world solutions that can help their community.

What is a **hackathon**?

A hackathon is an event in which people develop something over a short period of time to cater to a specific theme. Hackathons aren't only about the projects that people build, it's also about lifelong learning and building collaborative skills. They're also a place where you can build something that you're truly proud of.

Why should **YOU** support us

Blueprint means a lot to us, and we need help from sponsors to allow students to have a meaningful experience.

Who is **organizing** this?

Blueprint is being organized by the Robotics Club at Global Indian International School (GIIS). We are a group of passionate teenagers aiming to make robotics accessible and impactful to younger students, fostering skills in coding, hardware prototyping, and problem-solving.

What your funds will be used for:

- Food, drinks and snacks for participants
- Prizes for exceptional projects
- Robotics kits
- Merchandise for participants to treasure
- Providing a venue for the event
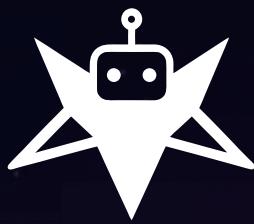

And creating the BEST EXPERIENCE for participants

Sponsorship Benefits

Here are some suggested sponsorship perks, We're always open to building custom sponsorship perks.

Sponsorship **Perks**

- Logo on our event website, social media, and posters
- Shoutout during opening and closing ceremonies
- Affiliation with STEM Education and youth-lead initiatives
- Brand Identity on participant certificates
